Open-Ended Feedback

Instructor Teaching Comments (20)

> "I liked her work ethic"
>
> "Our instructor gave is very helpful advice in learning, and guiding us instead of just providing us the answers"
>
> "I think she explained very thing clear"
>
> "Helped with things I didn't understand"
>
> "Teaches strong lectures covering the content well"
>
> "Mrs Seghal was very organised with the notebooks"
>
> "She did well with making us share our ideas and stay engaged"
>
> "I think she did a very good job integrating the work with the teaching, but I feel like I got a bit in the later classes since there wasn't a lot of practice material in the lectures"
>
> "Dr Sehgal was always very responsive to questions and was always very supportive."
>
> "Interactive lectures, flexible to student needs/levels"
>
> "My instructor was very nice and well prepared to teach us the lesson."
>
> "She fully addressed every question in a thoughtful way and entertained every idea presented by students. She also made sure everyone understood concepts before moving on to more advanced topics."
>
> "Very good at understanding student thought process, is friendly and kind"
>
> "The teaching is very considerate. She always makes sure that all materials are covered with complete understanding. If I have to give a suggestion, I would like more time on the advanced models and actually experiment with them, not only in our project."
>
> "She allows us to always present our thought process and our solutions."
>
> "my instructor was very helpful, especially as a beginner student in coding and data analytics. however, i think she was a little bit impatient when it came to the little things and when we would ask questions pertaining to our final project."
>
> "It's clear and easy to understand."
>
> "I hope the course focuses deeper on theoretical things, I hope we touch more on deep learning"
>
> "I liked that we stuck strictly with the curriculum from the syllabus and that the homework wasn't graded too harshly"
>
> "My instructor was very kind and did a good job answering questions"

Teaching Assistant Comments (20)

> "He helped a lit"
>
> "He is a nice person that always helps us."
>
> "Helped me out with technical difficulties"
>
> "Provided needed assistance effectively"
>
> "Daniel was very helpful at answering questions"
>
> "Was always present and looking to help"
>
> "Pretty good, though I didn't interact with him a lot outside of a few instances"
>
> "I love you Daniel"
>
> "Didn't have too much interaction with the course apart from grading, but was responsive."
>
> "My TA was very helpful and always open for questions."
>
> "He was helpful because he always answered questions quickly and worked with students to fully correct any code that was having issues."
>
> "Responded well, could be more organized"
>
> "He is very responsible and always got an answer when we ask him anything."
>
> "Very helpful and added on to in class discussions."
>
> "my TA was very helpful and definitely tried to be there for the class. i think that he could've been more clear when answering questions because sometimes it was very confusing and he wasn't able to provide more detail or clarification"
>
> "He answered every question clearly and was very helpful."

> “I think Daniel is good, but can be less harsh on hw”
>
> “Could maybe be a bit more open to questions and understanding difficulties”
>
> “Maybe explain answers more thoroughly”
>
> “Daniel was very helpful when i was confused”

Overall Course Comments (6)

> “Wish there was homework feedback, even if brief”
>
> “Provided a good starting level to the material”
>
> “Thank you so much!”
>
> “I had prior knowledge that made the course less beneficial, but it was good at reinforcing concepts.”
>
> “I hope I can lock in more, thus I want some more challenging and discussion related things”
>
> “At times it was difficult because students were at different levels with the content. For example, students who had already learned some of the content had to sit back and not do much just waiting for the slower pace of the lesson to progress. Could maybe divide into different levels”
